MILLS COLLEGE OAKLAND, California

The high quality of the work done at Mills College is indicated by the fact that undergraduates transfer to the University of California and Stanford without loss of status, their credits being accepted at full unit value. There have been students among those transferred to Stanford who have been qualified to assist in research and research before securing the bachelor's degree, as well as during their year of graduate work. Typical instances are: Gladys Young, reader in history; Josephine Cressy, assistant in German; Rachel King, assistant in mathematics.

Graduates of Mills College receive their degree and their teacher's certificate at the University of California in one year. Dora Leamon, B. S. Mills 1913; M. S. California 1914, is an instructor in biology in the Fresno Normal School; Gladys Young, B. S. Mills 1913; M. S. California 1914, is an instructor in biology in the Fresno Normal School; Gladys Young, B. S. Mills 1913; M. S. California 1914, is an instructor in biology in the Fresno Normal School.

**COMMITTEEMEN
WOULD HANDLE
RELIEF FUNDS****Members War Relief Say Work
Can Best Be Done By
Organization**

That the local War Relief Committee can handle funds contributed more economically and to better advantage than can two Armenians who are collecting relief funds here is an opinion expressed in a statement received last evening from the committee. This is the statement of the situation made by the committee:

"Two men have come to us stating: That their names are Deacon Nicodemus Elias and Evan Eliah; that they are Armenians, collecting aid for their countrymen; and that they desire the support of the people of Honolulu and of our churches.

On their presentation we wish to say:

(1) That they bring no evidence which satisfies us as to their standing or mission.

(2) That there have been many cases where so-called Armenians have used the woes of that people to collect money for their personal profit. And that, if we assume the genuineness of these men, the method of sending them out in this way is very wasteful. The expense of their living and travel of thousands of miles is taken out of what they raise, and the public has no accounting for funds given to them.

(3) We are in entire sympathy with Armenia and its terrible sufferings. We urge liberality toward this very needy people. But we would remind all of our people who wish to help them that we have a local committee of the highest integrity that has received funds for this purpose and is still in active operation. Funds given in this way are sent without any expense direct to these people. We urge that all gifts, large or small, be made through this committee.

(Signed): S. B. Dole, chairman of the War Relief Committee; Henry B. Rector; Amos A. Ebersole, Leon L. Looft; Honolulu, July 29, 1916.

**ENGELS COPPER
IS ON DIVIDEND
PAYING BASIS**

At Least Nine and Perhaps
Twelve Per Cent to be
Paid This Year.

Two cablegrams relative to Engels Copper dividends have been received within the past two or three days which differ in only one particular. Trent Trust Company, New York, advised that the directors of the company had declared a monthly dividend of 1 1/2 per cent payable July 20, and so worded as to infer that this was to be the regular monthly dividend for the balance of the year.

The other cable advice was to the effect that a 1 1/2 per cent dividend was declared but added that the dividends for the remainder of the year would amount to 12 per cent. This is taken to mean that at some time during the period named conditions and metal prices permitting an extra dividend of 3 per cent may be declared. Report has it that such extra dividend, if it be paid, will be declared for December.

It is evident that the policy of the company is, as outlined to the Star-Bulletin by a large stockholder and printed at that time, to pay for improvements to the earnings, over and above a fair dividend to the stockholders, thus insuring greater development and lower cost of production later when copper prices may be low.

Mountain King, according to cable advice received, is placed on a permanent dividend paying basis of 3 per cent quarterly.

CHINESE EXCHANGE FIXED

PEKING.—The government has fixed the rate of a dollar exchange officially at 130 copper cents. Recently the exchange rate given by money changers in the Chinese city has usually been 135 cents for each Mexican dollar. In the legation quarter and most high-class exchange places patronized by foreigners, the rate has been about 120 copper cents to the dollar.

**Parents Should Know
This Splendid Remedy**Simple Laxative Compound Helps to
Correct Constipation
in Children.

With all children there are times when the bowels fail to act naturally and it becomes necessary for the parents to administer a remedy. Cathartics and purgatives should never be used as these agents afford only temporary relief, while their violent action shocks the system unduly. Mrs. Eva F. Gaff, 617 10th St., Washington D. C., says that her little girl, Marie, had been subject to constipation, and that she found Dr. Caldwell's Syrup Pepsin the best remedy because of its mildness, and now always keeps a bottle of it in the house.

Dr. Caldwell's Syrup Pepsin is a compound of simple laxative herbs, free from opiates or narcotic drugs of any kind, and is an ideal remedy for children because of its mild action and positive effect. Its use tends to strengthen the impaired bowel action and restore normal regularity. It is important that parents should know of a dependable remedy with no unpleasant after effects, crippling or

MARIE GAFF.

strain. Dr. Caldwell's Syrup Pepsin costs only fifty cents a bottle and can be procured at any drug store. To obtain a trial bottle free of charge, write to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill., or by calling at Benson, Smith & Co., wholesale distributors, Honolulu.—Adv.

**MAUNA LOA AND KILAUEA WATCHED
CLOSELY BY EXPERT ON PHENOMENA****Dr. A. C. Day Hurries Over
From Mainland and Makes
New Observations**

(Special Star-Bulletin Correspondence)
HILO, June 24.—Dr. A. C. Day, the noted expert on volcanic work, who, with Dr. Shepherd, visited Hawaii and the volcano in 1912 and was responsible for the discovery that water existed in the molten lava at the bottom of Kilauea crater, is once more at the volcano. He hurried to Hawaii as soon as he heard of the recent eruption of Mauna Loa and, although his trip from the coast was made as rapidly as possible, he finds the lava flows stopped, but hopes to collect much valuable data concerning the outbreak.

It will be remembered that in 1912 Dr. Day and Dr. Shepherd managed to get down so close to the lake of molten lava in the big pit that they actually inserted tubes in the cones of lava near the sides of the crater wall. From these tubes samples of the various gases were obtained from the boiling lava and some most interesting discoveries were made. It

was while attempting to take a sample of gas from a particular cone that the discovery was made that the tube was not full of gas but water. This astonishing discovery was cabled all over the world and many conjectures were made as to the cause of the phenomenon.

The two scientists also made other interesting discoveries while at Kilauea and both wrote articles for scientific publications when they returned to the mainland.

Dr. Day is now investigating the lava flows from Mauna Loa and he is also watching Kilauea closely. He intends to remain in the vicinity of the volcano for some time to come and the result of his research work will be looked forward to with great interest.

The lava in Kilauea has risen again to about the 450 feet mark and the lake of fire is very active. All the 1912 "shelves" have fallen in, but the upper rim of rocks still remains, although in places there are hollows or caves gouged out from under them. It is just as well for visitors to the crater to keep their eyes open and to avoid going too close to the edge in certain places.

The Socialist Leipziger Volks-Zeitung has been suppressed for a week for libelous attack on the German government.

Germany is reported to have ordered reindeer, goats, storks, crows, starlings and sparrows to be killed for food.

**GERMAN SUMMER
SCHOOL**

During the summer vacation the German School will be open from July 6th to August 16. Lessons will be given on week days from 9:30 a. m. to 11:30 a. m., with the exception of Saturdays. Registrations can be made with Pastor G. Schaefhirt any morning at the school grounds, adjoining the German Church, Beretania street.
